3. The *de novo* synthesis of β -glucuronide conjugates from glucuronic acid is a pathway that is not active in the liver, but that can be induced in other tissues by treatment with glucuronide conjugates.

Fig. 2. Effect of the concentration of the solution of the initiator on the rate of polymerization of α -methylstyrene.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. The first step in the process of developing a business plan is to conduct a market analysis. This involves researching the industry, identifying potential customers, and understanding the competitive landscape. A thorough market analysis provides valuable insights into the opportunities and challenges of the market, which are essential for formulating a realistic business plan.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.
